PROGRAMACIÓN PRELIMINAR
CONGRESO ACOREV 2027

Jueves 04/Mar/2027		Viernes 05/Mar/2027		Sábado 06/Mar/2027	
7:00	**Registro**	7:30	**Registro**		
08:45 - 09:00	**Apertura** **Palabras Presidente Acorev** **Palabras Presidente Socoftal**	08:00 - 09:00	**Desayuno Astellas**	08:00 - 09:00	**Desayuno Roche**
09:00 - 10:00	**DMAE Neovascular**	09:00 - 10:00	**Retina Quirúrgica II**	09:00 - 10:00	**Trauma I**
09:00 - 09:10	Fluid tolerance - What does the data show? Rishi P. Singh, MD, FASRS	09:00 - 09:10	Should we treat lamellar macular holes: when, which ones and how Barbara Parolini, MD	09:00 - 09:10	Cerrar el ojo y algo más: Guía para abordaje quirúrgico Wendy Reyes, MD
09:10 - 09:20	Dissecting the spectrum of neovascular AMD in white patients Camiel J.F. Boon, MD, PhD, FEBO	09:10 - 09:20	Cierre de agujero macular sin endotaponador Nassim Abreu, MD.	09:10 - 09:20	Reconocer para salvar sindrome de cornea fragil Wendy Reyes, MD
09:20 - 09:30	Predicting angiogenesis triggers in AMD through OCT & OCTA Giuseppe Querques, MD, PhD	09:20 - 09:30	New ideas in the treatment of PVR Barbara Parolini, MD	09:20 - 09:30	ABC cuerpo extraño intra ocular Franco Benvenuto, MD
09:30 - 09:40	Bolus and continuous anti VEGF delivery the same for our patients? Carlos Quezada, MD, FASRS	09:30 - 09:40	An Update on Current Surgical Therapy for Exudative AMD J. Fernando Arevalo, MD PhD FACS FASRS	09:30 - 09:40	Reconstrucción de iris Wendy Reyes, MD
09:40 - 09:50	Real world outcomes of Faricimab and Aflibercept 8mg. Rishi P. Singh, MD, FASRS	09:40 - 09:50	Hialoidectomía periférica en cirugía de Retinopatía Diabética Proliferativa Nassim Abreu, MD.	09:40 - 09:50	Trauma ocular contuso y desprendimiento de retina Franco Benvenuto, MD
09:50 - 10:00	Discusión	09:50 - 10:00	Discusión	09:50 - 10:00	Discusión
10:00 - 10:45	**Macular Hot Topics**	10:00 - 10:45	**Retinopatía del Prematuro**	10:00 - 10:50	**Uveítis**
10:00 - 10:10	Non-exudative & Non-neovascular fluid In AMD Giuseppe Querques, MD, PhD	10:00 - 10:10	Resultados de la validación del algoritmo TWO-ROP en población de neonatos de la República Dominicana Nassim Abreu, MD.	10:00 - 10:10	Biomarcadores en OCT en las uveítis posteriores Ariel Schlaen, MD, PhD
10:10 - 10:20	Serous business: the differential diagnosis of serous maculopathy Camiel J.F. Boon, MD, PhD, FEBO	10:10 - 10:20	Biomarcadores en Retinopatía del Prematuro para decidir tratamiento Maria Ana Martínez, MD	10:10 - 10:20	ES uveítis o no? Sindromes de enmascaramiento Ariel Schlaen, MD, PhD
10:20 - 10:30	Evidence-based treatment of central serous chorioretinopathy Camiel J.F. Boon, MD, PhD, FEBO	10:20 - 10:30	El papel actual del láser en Retinopatía del Prematuro Maria Ana Martínez, MD	10:20 - 10:30	AZOOR: Mirando mas allá del fondo Ariel Schlaen, MD, PhD

10:30 - 10:45	Discusión	10:30 - 10:45	Discusión	10:30 - 10:40	Retinopatía autoinmune: Un desafío diagnóstico y terapéutico Ariel Schlaen, MD, PhD
10:45 - 11:15	**Visita Muestra Comercial - Refrigerio**	10:45 - 11:15	**Visita Muestra Comercial - Refrigerio**	10:40 - 10:50	Discusión
11:15 - 12:40	**Enfermedades Vasculares de la Retina**	11:15 - 12:00	**Retina Pediátrica**	10:50 - 11:20	**Visita Muestra Comercial - Refrigerio**
11:15 - 11:25	AI for Diabetic Retinopathy Screening in Brazil Jorge Rocha, MD PhD	11:15 - 11:25	Cómo explorar a niños, tips prácticos Maria Ana Martínez, MD	11:20 - 12:00	**Trauma II**
11:25 - 11:35	PEVAC & TelCaps Giuseppe Querques, MD, PhD	11:25 - 11:35	Stickler, Retinosquisis y otras vítreo-retinopatías hereditarias Franco Benvenuto, MD	11:20 - 11:30	Trauma ocular en la Infancia Franco Benvenuto, MD
11:35 - 11:45	Increased Retinal Capillary Density in Acute Retinal Vein Occlusion and Diabetic Retinopathy after Intravenous Infusion of Annexin V Paulo Stanga, MD.	11:35 - 11:45	Why Should we be Asking Adult Retina Patients if They Were Born Premature Aleksandra V. Rachitskaya, MD, FASRS	11:30- 11:40	Loxoscelismo Wendy Reyes, MD
11:45 - 12:00	Role of combined use of single-scan ultra-widefield 130° OCT A and ultra-widefield 200° FFA: full-thickness vs layer specific evaluation Paulo Stanga, MD.	11:45 - 12:00	Discusión	11:40 - 11:50	Rehabilitación visual y estetica post trauma Wendy Reyes, MD
12:00 - 12:10	Nonperfusion in retinovascular disease - is it real, reversible, and prognostic? Rishi P. Singh, MD, FASRS	12:00 - 12:40	**Distrofias Retinianas**	11:50 - 12:00	Discusión
12:10 - 12:20	GLP-1 Receptor Agonists and Diabetic Retinopathy: From Large Database Studies to Real World Aleksandra V. Rachitskaya, MD, FASRS	12:00 - 12:10	Gildeuretinol in the treatment of Stargardt Disease Carlos Quezada, MD, FASRS	12:00 - 12:40	**Atrofia Geográfica**
12:20 - 12:30	GLP-1 Receptor Agonists and Age-Related Macular Degeneration: Current State and Future Directions Aleksandra V. Rachitskaya, MD, FASRS	12:10 -12:20	Novel insights into X-linked retinoschisis: from diagnosis to gene therapy Camiel J.F. Boon, MD, PhD, FEBO	12:00 - 12:10	Pathogenic Role of Individual Structural Lesions in the Progression of Geographic Atrophy Giuseppe Querques, MD, PhD
12:30 - 12:40	Discusión	12:20 - 12:30	Gene therapy for IRDs: promises and pitfalls Camiel J.F. Boon, MD, PhD, FEBO	12:10 -12:20	An Overview of Geographic Atrophy: What is in the Pipeline? J. Fernando Arevalo, MD PhD FACS FASRS
12:40 - 14:00	**Almuerzo - Simposio Axon Pharma**	12:30 - 12:40	Discusión	12:20 - 12:30	Geographic Atrophy: Patient Selection for Treatment Jorge Rocha, MD PhD
14:00 - 15:00	Charla Magistral	12:40 - 14:00	**Almuerzo - Simposio Bayer**	12:30 - 12:40	Discusión
15:00 - 16:30	**Retina Quirúrgica I**	14:00 - 15:00	Charla Magistral	12:40 - 14:00	**Almuerzo - Simposio Abbvie**

15:00 - 15:10	Diabetic Vitrectomy: Practical Tips Jorge Rocha, MD PhD	15:00 - 16:30	**Cirugía Macular y Desprendimiento de Retina**	14:00- 15:00	**DMAE: Imagen y Terapias del Futuro**
15:10 - 15:20	Desprendimiento de retina asociado a enfermedades vasculares isquémicas Franco Benvenuto, MD	15:00 - 15:10	Why and how to treat a posterior staphyloma: switching perspective from the retina to the sclera Barbara Parolini, MD	14:00 - 14:10	How high-resolution imaging has improved our classification of AMD SriniVas R. Sadda, MD.
15:20 - 15:30	Vitrectomy for Idiopathic Epiretinal Membrane in Patients with Glaucoma Jorge Rocha, MD PhD	15:10 - 15:20	Long term results of choroidal transplant for exudative maculopathies Barbara Parolini, MD	14:10 - 14:20	Metabolic and Functional Imaging of the Retina SriniVas R. Sadda, MD.
15:30 - 15:40	When to Worry and When Not to Worry About Retinoschisis Aleksandra V. Rachitskaya, MD, FASRS	15:20 - 15:30	Management of Subretinal Hemorrhage in 2027 J. Fernando Arevalo, MD PhD FACS FASRS	14:20 - 14:30	Intermediate AMD drug targets Rishi P. Singh, MD, FASRS
15:40 - 15:50	Application of Ultra-widefield Multiwavelength Imaging with Integrated Navigated Central and Peripheral OCT in Surgical and Indirect Ophthalmoscope-delivered Laser Retinal Management Paulo Stanga, MD.	15:30 - 15:40	subretinal Gene Therapy Surgery: Technique, Pearls and Complications Paulo Stanga, MD.	14:30 - 14:40	Reducing Treatment Burden in Wet AMD: Current Horizons in TKIs J. Fernando Arevalo, MD PhD FACS FASRS
15:50- 16:00	TBD	15:40 - 15:50	OCT Biomarkers for Surgical Retinal Disorders SriniVas R. Sadda, MD.	14:40 -14:50	TBD
16:00 - 16:10	TBD	15:50- 16:00	A New Era in Rhegmatogenous Retinal Detachment Repair: Suprachoroidal Viscopexy (SCVEXY) Rajeev H. Muni, MD, MSC, FRCS(C), FASRS	14:50 - 15:00	Discusión
16:10- 16:20	TBD	16:00 - 16:10	Post-Operative Anatomic Abnormalities following Retinal Detachment Repair:The Concept of Integrity Rajeev H. Muni, MD, MSC, FRCS(C), FASRS	15:00 - 16:00	**Curso de Lentes**
16:20- 16:30	Discusión	16:10 - 16:20	TBD		
16:30 - 17:30	**Curso de Neumoretinopexia**	16:20-16:30	Discusión		
		16:30 - 17:30	**Trabajos y Premiación**
